

# METAL PRIMERS

**SISSONS  
Paint**

Good Looks That Last  
AN ISO CERTIFIED COMPANY

## SPECIALLY FORMULATED FOR PRIMING ALL TYPES OF METAL SURFACES

*The One-Pack Etch Primer* is mandatory before priming and painting new (unweathered) galvanized or aluminum surfaces.

*The Red Oxide Primer* is fast drying and resistant to heavy duty top coats and ideally suited for shop-priming structural steel.

*The Zinc Chromate and Zinc Phosphate Primers* have a high concentration of anti-corrosive pigments and are highly recommended where maximum protection against rusting is required.

**ZINC CHROMATE  
PRIMER YELLOW**

**ZINC CHROMATE  
PRIMER CREAM**

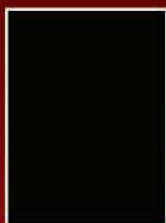

**ZINC CHROMATE  
PRIMER RED**

**RED OXIDE  
PRIMER**

**ZINC CHROMATE  
PRIMER GREEN**

**also available:  
ONE-PACK  
ETCH PRIMER**

Colours shown may differ slightly from actual Sissons Paint colours due to differences in surface texture, lighting & aging of colour card.
